Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments

The General Assembly,

Recalling its resolutions 1 (I) of 24 January 1946, 67/34 of 3 December 2012, 68/39 of 5 December 2013 and 69/37 of 2 December 2014,

Recalling the seventieth anniversary of the United Nations, which was established to save succeeding generations from the untold suffering of the scourge of war, representing a historic opportunity to reaffirm that nuclear weapons should never be used again and to advance nuclear disarmament,

Reiterating its grave concern at the danger to humanity posed by nuclear weapons, which should inform all deliberations, decisions and actions relating to nuclear disarmament and nuclear non-proliferation,

Recalling the expression of deep concern by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and its resolve to seek a safer world for all and to achieve the peace and security of a world without nuclear weapons,¹

Noting with satisfaction the renewed attention to the catastrophic humanitarian consequences and risks associated with nuclear weapons that has been generated by the international community since 2010 and the growing awareness that these concerns should underpin the need for nuclear disarmament and the urgency of

achieving and maintaining a nuclear-weapon-free world, and noting further with satisfaction the prominence accorded to the humanitarian impact of nuclear weapons in multilateral disarmament forums,

Recalling the discussions held at the Conferences on the Humanitarian Impact of Nuclear Weapons, hosted by Norway on 4 and 5 March 2013, by Mexico on 13 and 14 February 2014 and by Austria on 8 and 9 December 2014, aimed at understanding and developing a greater awareness of the catastrophic consequences of nuclear weapons detonations which further reinforce the urgency of nuclear disarmament,

Emphasizing the compelling evidence presented at the Conferences on the Humanitarian Impact of Nuclear Weapons which detailed the catastrophic consequences that would result from a nuclear weapon detonation, reaching well beyond national borders; the lack of capacity of States and international organizations to deal with the aftermath, and the risk of an occurrence, due to an accident, systems failure or human error,

Noting in particular the research findings presented to the Vienna Conference regarding the strongly disproportionate and gendered impact of exposure to ionizing radiation for women and girls,

Recalling the convening, on 26 September 2013, of the high-level meeting of the General Assembly on nuclear disarmament and resolution 69/58 of 2 December 2014, entitled "Follow-up to the 2013 high-level meeting of the General Assembly on nuclear disarmament", and the decisions contained therein, and welcoming the commemoration and promotion of 26 September as the International Day for the Total Elimination of Nuclear Weapons,

Welcoming resolution 69/41 of 2 December 2014 in which it encouraged Member States, international organizations and civil society to take into account the report of the Open-ended Working Group to develop proposals to take forward multilateral nuclear disarmament negotiations for the achievement and maintenance of a world without nuclear weapons,² as well as the report submitted by the Secretary-General pursuant to resolution 68/46 of 5 December 2013 on how to take forward multilateral nuclear disarmament negotiations,³ which includes the steps already taken by Member States to promote multilateral nuclear disarmament negotiations,

Underlining the importance of nuclear disarmament and non-proliferation education,

Reaffirming that transparency, verifiability and irreversibility are cardinal principles applying to nuclear disarmament and nuclear non-proliferation, which are mutually reinforcing processes,

Recalling the decisions and the resolution adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁴ the basis upon which the Treaty was indefinitely extended, and

the Final Documents of the 2000^5 and the 2010^6 Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, and in particular the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, in accordance with commitments made under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,⁷

Reaffirming the commitment of all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to apply the principles of irreversibility, verifiability and transparency in relation to the implementation of their treaty obligations,

Recognizing the continued vital importance of the entry into force of the Comprehensive Nuclear-Test-Ban Treaty⁸ to the advancement of nuclear disarmament and nuclear non-proliferation objectives, and welcoming the recent ratification of the Treaty by Angola,

Recalling that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons and the legitimate interest of non-nuclear-weapon States in receiving unequivocal and legally binding negative security assurances from nuclear-weapon States pending the total elimination of nuclear weapons,

Reaffirming the conviction that, pending the total elimination of nuclear weapons, the establishment and maintenance of nuclear-weapon-free zones enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objectives of nuclear disarmament, and welcoming the Conferences of States Parties and Signatories to Treaties that Establish Nuclear-Weapon-Free Zones and Mongolia,

Welcoming the ratification by China, France, the Russian Federation and the United Kingdom of Great Britain and Northern Ireland of the Protocol to the Treaty on a Nuclear-Weapon-Free Zone in Central Asia, and urging those States to continue to make real progress towards strengthening all existing nuclear-weapon-free zones through, inter alia, the withdrawal or revision of any reservations or interpretative declarations contrary to the object and purpose of the treaties establishing such zones,

Recalling the encouragement expressed at the 2010 Review Conference for the establishment of further nuclear-weapon-free zones, on the basis of arrangements freely arrived at among the States of the region concerned, reaffirming the expectation that this will be followed by concerted international efforts to create such zones in areas where they do not currently exist, especially in the Middle East, and, in this context, noting with deep disappointment the non-fulfilment of the agreement at the 2010 Review Conference on practical steps to fully implement the 1995 resolution on the Middle East, and disappointed that no agreement could be reached at the 2015 Review Conference of the Parties to the Treaty on the
