Nagasaki Youth Delegation will present "*All humans could be next Hibakushas. All humans could make others be Hibakushas*" to send a message for nuclear weapons abolition from Nagasaki.

Even after 75 years from atomic bombing of Hiroshima and Nagasaki, we still have about 14,000 nuclear warheads on the world and younger generation from Nagasaki now try to raise fundamental question about our responsibility for nuclear weapons. This presentation was originally scheduled to be presented as a side event at the 2020 NPT Review Conference in New York. But because of the pandemic caused by new corona-virus (COVID-19), we decided to present it online with some adjustments.

We expect you to get a strong message from members of Nagasaki Youth Delegation; i.e. "**nuclear weapon is your problem**".
